military personnel or motor vehicles were seen entering and leaving the Albrechts Kaserne. An AA gun having a flash hider stood in the yard. Sentries wore red-bordered black epaulets. Only one truck was seen in the cantonment along the road to Bisamberg. No guns were noticed. Sentries wore red-bordered black epaulets and carried binoculars. Source believed that, except for a rear detail, the troops were out for practice. \*\*

25X1 \* [redacted] Comment. The motor vehicles belong to the 2d and 17th Cds Mecz Divs, to the 1nd 95th Cds Mtc Rifle Div, to the 23d AAA Div and to HQ units of the Central Group of Forces. The report indicates that, at the beginning of June 1952, the Apetlon AAA range was occupied by almost all AAA components of the combat units of the Central Group Forces.

25X1 \*\* [redacted] Comment. The light occupation of the military installations in Korneuburg and Stockerau is explained by the fact that elements of the 23d AAA Div are at the Apetlon AAA range.
